Contents of Volume 222, 1982

No. 1 issued on January 15, 1982

R. Seldenrijk, K.G.H. Huijsman, A.M.A. Heussen, F.C.G. van de Veerdonk: A comparative ultrastructural and physiological study on melanophores of wild-type and periodic albino mutants of *Xenopus laevis* 1

S. Suzuki: Physiological and cytochemical studies on activator calcium in contraction by smooth muscle of sea cucumber, *Isostichopus badionotus* 11

E.M. Matera, W.J. Davis: Paddle cilia (discocilia) in chemosensitive structures of the gastropod mollusk *Pleurobranchaea californica* 25

T. Komuro: The interstitial cells in the colon of the rabbit. Scanning and transmission electron microscopy 41

Y. Désormeaux, M. Ballak, S. Benchimol, J. Lacasse, M. Cantin, J. Genest: Synthesis and migration of proteins and glycoproteins in juxtaglomerular cells of sodium-deficient rats. An ultrastructural radioautographic study 53

C.D. Dijkstra, H.L. Langevoort: Regeneration of splenic tissue after autologous subcutaneous implantation: Development of non-lymphoid cells in the white pulp of the rat spleen 69

A.K. Pearson, P. Licht: Morphology and immunocytochemistry of the turtle pituitary gland with special reference to the pars tuberalis 81

G.M. Mitchell, B.F. Stratford, G.B. Ryan: Morphogenesis of the renal juxtaglomerular apparatus and peripolar cells in the sheep 101

J. Blok, B.A.A. Scheven, A.A. Mulder-Stapel, L.A. Ginsel, W.Th. Daems: Endocytosis in absorptive cells of cultured human small-intestinal tissue: Effect of cytochalasin B and D 113

F.N. Carrick, R.L. Hughes: Aspects of the structure and development of monotreme spermatozoa and their relevance to the evolution of mammalian sperm morphology 127

I. Abreu, J.F. David-Ferreira: Fine structure of seminiferous tubules from prenatally irradiated rats 143

T. Souto-Padrón, W. de Souza: Fine structure and cytochemistry of peroxisomes (microbodies) in *Leptomonas samueli* 153

R.H. Lange, Z. Grodziński, W. Kilarski: Yolk-platelet crystals in three ancient bony fishes: *Polypterus bichir* (Polypteri), *Amia calva* L., and *Lepisosteus osseus* (L.) (Holostei) 159

J.C. McNamara, A. Sesso: Pigment biogenesis in freshwater shrimp ventral nerve chord chromatophores 167

M. Hewing: Pinealocytes contacting the cerebrospinal fluid of the suprapineal recess in the Mongolian gerbil (*Meriones unguiculatus*) 177

D.E. Bignell, H. Oskarsson, J.M. Anderson: Formation of membrane-bounded secretory granules in the midgut epithelium of a termite, *Cubitermes severus,* and a possible intercellular route of discharge 187

D.B. Burnham, J.A. Williams: Effects of high concentrations of secretagogues on the morphology and secretory activity of the pancreas: A role for microfilaments 201

M. Shiino: Ultrastructural evidence of gonadotrophin release from castration cells following injection of LHRH in the rat 213

Short Communications

Y. Murabe, Y. Ibata, Y. Sano: Morphological studies on neuroglia. IV. Proliferative response of non-neuronal elements in the hippocampus of the rat to kainic acid-induced lesions 223

M. Bendayan: Contacts between endocrine and exocrine cells in the pancreas 227

No. 2 issued on January 29, 1982

M. Olivereau, J. Olivereau: Calcium-sensitive cells of the pars intermedia and osmotic balance in the eel. I. Responses to changes in the environmental calcium and magnesium 231

H.-W. Korf, N.H. Zimmerman, A. Oksche: Intrinsic neurons and neural connections of the pineal organ of the house sparrow, *Passer domesticus*, as revealed by anterograde and retrograde transport of horseradish peroxidase 243

W.K. Ovalle, Jr.: Ultrastructural duality of extrafusal fibers in a slow (tonic) skeletal muscle 261

T.M. Szopa, G.M. Happ: Cytodifferentiation of the accessory glands of *Tenebrio molitor*. IX. Differentiation of the spermathecal accessory gland in vitro 269

R.J. Sterling, P.J. Sharp: The localisation of LH-RH neurones in the diencephalon of the domestic hen 283

F. Dacheux: Ultrastructural localization of thyrotropin (TSH) in the porcine anterior pituitary. A comparison between pre-embedding and post-embedding methods 299

H. Münz, B. Claas, W.E. Stumpf, L. Jennes: Centrifugal innervation of the retina by luteinizing hormone releasing hormone (LHRH)-immunoreactive telencephalic neurons in teleostean fishes 313

I.A. Johnston: Capillarisation, oxygen diffusion distances and mitochondrial content of carp muscles following acclimation to summer and winter temperatures 325

R.H. Spitzer, E.A. Koch, R.B. Reid, S.W. Downing: Metabolic-morphologic characteristics of the integument of teleost fish with mature lymphocystis nodules 339

K. Satoh, A. Kashiba, H. Kimura, T. Maeda: Noradrenergic axon terminals in the substantia gelatinosa of the rat spinal cord. An electron-microscopic study using glyoxylic acid-potassium permanganate fixation 359

P.E. Spoerri, J.R. Wolff: Morphological changes induced by sodium bromide in murine neuroblastoma cells in vitro 379

B.G. Monroe, E.M. Holmes: The freeze-fractured median eminence. I. Development of intercellular junctions in the ependyma of the 3rd ventricle of the rat 389

W. Krebs, R. Lietz: Apical region of the crayfish retinula 409

R. Guglielmone, D. Cantino: Autonomic innervation of the ocular choroid membrane in the chicken. A fluorescence-histochemical and electron-microscopic study 417

T.v. Veen: The parapineal and pineal organs of the elver (glass eel), *Anguilla anguilla* L. 433

I. Kunzenbacher, J. Bereiter-Hahn, M. Osborn, K. Weber: Dynamics of the cytoskeleton of epidermal cells in situ and in culture 445

T. Yamashita, R. Honjin: Fine structure, origin, and distribution density of the autonomic nerve endings in the tarsal muscle in the eyelid of the mouse 459

No. 3 issued on February 5, 1982

K. Tornqvist, A. Mandahl, S. Leander, I. Lorén, R. Håkanson, F. Sundler: Substance P-immunoreactive nerve fibres in the anterior segment of the rabbit eye. Distribution and possible physiological significance 467

R. Håkanson, J. Alumets, J.F. Rehfeld, M. Ekelund, F. Sundler: The life cycle of the gastrin granule 479

E. Eguchi, T. Goto, T.H. Waterman: Unorthodox pattern of microvilli and intercellular junctions in regular retinular cells of the porcellanid crab *Petrolisthes* 493

Y. Endo, J. Nishiitsutsuji-Uwo: Exocytotic release of secretory granules from endocrine cells in the midgut of insects 515

C.J. Flickinger, G.A. Read: Distribution of phospholipids labeled with ^{3}H-choline and relationship between membranous organelles in amoebae, as studied by electron-microscopic radioautography 523

S. Matsushima, Y. Morisawa: Ultrastructural observations on the pineal gland of the Chinese hamster, *Cricetulus griseus*. I. The superficial pineal 531

R.A. Cloney, M.J. Cavey: Ascidian larval tunic: Extraembryonic structures influence morphogenesis 547

S. Egginton, I.A. Johnston: Muscle fibre differentiation and vascularisation in the juvenile European eel (*Anguilla anguilla* L.) 563

S. Egginton, I.A. Johnston: A morphometric analysis of regional differences in myotomal muscle ultrastructure in the juvenile eel (*Anguilla anguilla* L.) 579

M.K. Shaw, T.W. Davies, D.A. Erasmus: The demonstration of calcium in the axonal granules of the peripheral nervous system of male *Schistosoma mansoni* by X-ray microanalysis 597

J. Peignoux-Deville, F. Lallier, B. Vidal: Evidence for the presence of osseous tissue in dogfish vertebrae 605

B. L. Hansen, G.N. Hansen: Immunocytochemical demonstration of somatotropin-like and prolactin-like activity in the brain of *Calamoichthys calabaricus* (Actinopterygii) 615

P.J. McMillan, U. Heidbüchel, L. Vollrath: Anomalous occurrence of immunoreactive calcitonin cells in the thymus of the rat 629

J.G. Tidball: An ultrastructural and cytochemical analysis of the cellular basis for tyrosine-derived collagen crosslinks in *Leptogorgia virgulata* (Cnidaria: Gorgonacea) 635

P. Bräunig: Strand receptors with central cell bodies in the proximal leg joints of orthopterous insects 647

K. Saitoh, R. Kamiyama, S. Hatakeyama: A scanning electron microscopic study of the boundary zone of the human spleen 655

K. Michel, M. Petersen: Development of the tympanal organ in larvae of the migratory locust (*Locusta migratoria*) 667

R. Dierichs, C. Dosche: The alveolar-lining layer in the lung of the axolotl, *Ambystoma mexicanum.* An electron-microscopic study using heavy metal complexes 677

Short Communications

F. Gracia-Navarro, J. Doerr-Schott: Immunohistochemical detection of adenohypophyseal cells containing hormones in *Rana ridibunda* 687

G. Sancesario, C. Cavallotti, F. Amenta: The autonomic innervation of rat jugular vein 691

M. Karasek, J.T. Hansen: Presence of dense-core vesicles in pinealocytes of the cat 695
